Daily budget guide

As a broad starting point from the guide: budget travellers may spend around €60–€80 per person per day; mid-range trips around €100–€150; and higher-comfort trips €200+ per day. These are planning estimates, not live prices. Accommodation, season and travel style make a big difference.

Ways to keep costs under control

- ☐ Use the metro or buses for longer journeys and check the correct Andante ticket zone.
- ☐ Mix restaurants with bakeries, markets and casual cafés.
- ☐ Balance paid attractions with free walks, viewpoints, gardens and neighbourhoods.
- ☐ Check whether a tour or attraction needs advance booking before travelling.
- ☐ When withdrawing cash, use a bank ATM rather than a standalone currency-conversion machine; review fees and conversion choices on screen.
